FOUR DEATHS AND SEVENTEEN CASES

Of Yellow Fever In New Orleans Declare Officials.

SITUATION IS VERY SERIOUS

The Authorities Claim They Can Control the Plague—People Are Leaving Wherever Possible—Quarantine Regulations Getting More Strict.

New Orleans, August 5.—Up to noon today seventeen new cases and four deaths from yellow fever were reported to the city board of health.

Situation Is Precarious.

New Orleans, August 5.—Extreme measures which some of the country districts are taking to guard themselves from yellow fever threatens to put a temporary stop to train service and may bring the federal government into the fever situation in the south.

The most radical action thus far taken is that of the police jury of Calcasieu, the second largest parish in the state. It has passed resolutions ordering that all traffic, travel and intercourse betweent Calcasieu and points east, north and west shall cease at once, and that no one shall be permitted to enter the limits of the parish until further orders. In consequence of this resolution the Southern Pacific has been ordered from today to run no more trains through Calcasieu which means an abandonment of the through service of the line to the west.

The Watkins trains and the Kansas City Southern trains have also been stopped. It is understood that the quarantine in a day or two will be extended to call freight trains. The effect of the orders is stop all mail service into or through Calcasieu.

Guards Shot at Negro.

Rapides has shut her doors to everything except mail and fuel oil. At Mermentau, La., shots were exchanged between guards and a negro who was trying to run the quarantine. Grant parish has instituted a shotgun quarantine, stopped all trains and shut herself off completely from mail service. Lafayette, La., has issued orders that only mail and disinfected freight shall come into that parish Tensas parish has quarantined all passengers, baggage, household goods fruits and fabrics.

Precautions as radical as these have been taken in many other sections of the south and there is apparently as great a panic now prevailing as at any time during 1897, the bulk of the country laymen refusing to put their faith in the mosquito theory. Although the report of 54 new cases in the preceding 24 hours would ordinarily have a tendency to cause alarm here, people find assurance in an analysis of the detaile dreport made by the board of health. It is shown that of the 54 cases 29 were rooted out of concealment by Surgeon Farrar Richradson, of the Marine hospital service and his assistants.

The area of infection is increasing below Canal street, but the disease is making feeble progress above.

People Leaving Louisiana.

The exodus from Louisiana towns where fever has appeared continues. A large number of people have gone north and east from Shreveport and points in that section of the state. At Alexandria as the result of a mild case there one hundred citizens chartered a special train to leave there today. Yet the patient that has caused the panic is reported to have so far recovered as to be able to sit up in bed and smoke a cigarette.

Owing to the quarantines there is great suffering on the part of those who are fleeing from the country districts of North Louisiana. Two thousand refugees were compelled to remain in their trains at Jonesboro, Ark. The trains were surrounded by state troops. So hurriedly had the trains been made up that no provision had been made for food and water and the [illegible] and furnishing

refused. The unfortunate passengers many of whom were women and children, were not permitted to put their heads out of the windows to get a breath of fresh air.

Local Pacific officials said today that they did not expect that the redical quarantine measures adopted in Calcasieu would stop the passage of the United States mails. The road has arranged to carry the mail car with an engine each day from one end of the parish to the other. Trains on the Southern Pacific today are only running as far as Mermenton.

Mayor Behrman has issued an appeal to merchants to conduct themselves so that their employes may assist in street cleaning work. A dispatch from the Rigolets says:

The Louisiana naval reserves, under Lieutenant Ivy, in the oyster commission lugger Nunez, captured in Ship Island canal the Mississippi patrol boat Tipsey.

Missouri Puts on Quarantine.

St. Louis, August 5.—The quarantine order issued by the Missouri board of health against districts affected by yellow fever, will be enforced along the eastern borders of the state as far north as St. Louis is along the entire southern border, and along the western border as far north as Kansas City.

The establishment of quarantine stations or detention camps will be in the hands of the different local boards of health, unless it is found necessary by the state board to intervene. In case persons succeed in entering the state from the danger zone of the south, they will be detained in cities or towns farther in the interior if unable to exhibit a bill of health.

Mississippi Situation Unchanged.

Jackson, Miss., August 5.—The situation in Mississippi today is unchanged, no new points of infection are reported, and no new cases have appeared at Lumberton or Summerall. Local quarantines are being lightened as a result of last night's report from New Orleans.

Captain Gorman and a detail of privates from company A at Vicksburg, passed through the city this afternoon enroute to the gulf coast to reinforce the quarantine guards. The Mississippi troops doing duty on the coast are under the exclusive directions of the marine hospital service, privates being paid $2 per day.

No Curtailment of Service.

Memphis, Tenn., August 5.—The local Illinois Central officials here report that, although the quarantine regulations are extremely strict, there has as yet been no curtailment in its train service on this account, all trains running as far south as Haralson, a point this side of New Orleans, passengers and crews changing cars in both directions Up to the present time there has been no clash with the quarantine authoritis.

Quarantine Fever Suspects.

New York, August 5.—Four fever suspects were taken from the steamer Nueces from Galveston today at quarantine and transferred to Hoffman Island for observation as to the cause of abnormally high temperatures. One was a steerage passenger and the other members of the crew.

Mobbed for Striking a Woman.

New York, August 5.—Brudenew Exton, who asserts that his grandfather was lord mayor of London, is a prisoner in the Tenderloin police station under a charge of disorderly conduct Exton, who also claims to be an insurance broker, is said by witnesses to have knocked down a woman in front of a Broadway hotel conversing with an acquaintance. Exton stumbled against the woman by accident, but she screamed for help loudly and half a dozen jumped upon the unfortunate broker at once. He was beaten to the sidewalk and in a moment half a hundred loungers were attempting to hit him. A policeman beat his way through the crowd and rescued Exton from serious injury. He was hustled away, and during the excitement the woman disappeared with her little daughter by whom she was accompa-

SANFORD'S FATE IN HANDS OF THE JURY

Case Given to Jurymen At Ten O'clock Friday Morning.

COURT ROOM WAS CROWDED

The Closing Speech for the Prosecution Was Made By Attorney Copeland—Excitement Runs High, as Both Sides Have Many Friends.

Rome, Ga., August 5.—Court opened this morning at 8 o'clock in the Sanford murder case with a large crowd in attendance. Colonel Copeland of the state, immediately began the delivery of his argument, which was the sixth and last to be made in the case.

Mr. Sanford and his counsel entered the court room promptly.

It was privately announced to Juror Brandon that his mother was much better.

As Colonel Copeland progressed, the crowds became larger and before 8:30 many persons were standing. The argument was eloquent and impressive and a magnificent effort. Colonel Copeland spoke for two hours, concluding at 10 o'clock.

The gun with which Wright was killed, the clothes worn by the victim, photographs, maps and other evidence admitted, including the indictment for murder, were tendered to the jury.

The court room was crowded and many persons were on the outside who could not gain admission to the court room.

Judge Mose Wright began his charge to the jury at five minutes after 10 o'clock. The judge charged the law on murder and voluntary manslaughter.

The case then went to the jury.

PLANS TO FLOAT RUSSIAN LOAN.

M. Witte Has Held Conference with Wall Street Bankers.

New York, August 5.—Plans are on foot to float a Russian loan in America, and conferences with this object in view already have been held, says the Herald, between Mr. Sergius Witte, the Russian senior peace envoy and representatives of one or two of Wall street's most prominent banking firms and institutions.

It is understood, continued the Herald, that further conferences will be held and that the information which M. Witte obtains will have a highly important bearing on the outcome of the peace negotiations which are soon to begin.

If Mr. Witte finds that he is able to place a loan in the United States and it is believed by prominent financiers that if the terms are satisfactory he can do so, the aspect of the Russian cause may be materially changed when the peace plenipotentiaries make known their propositions to each other.

Heretofore, it has been believed that no Russian loan could be floated in this country unless it were based on a cessation of the war and the promise of internal reforms in Russia. Information was given M. Witte last night, however, that indicated the willingness of at least one, and possibly two, prominent banking houses to consider the price Russia would pay for negotiating a loan.

New Electric Roard in Alabama.

Opelika, Ala., August 5.—It was officially announced in this city today that contracts had been let and preparations made for constructing an electric car line between this city and Auburn, for which 10 miles of track will have to be laid. The capacity of the Opelika electric plant will be increased threefold to furnish power for the road and light and power for Opelika for $200,000. Work of construction is to begin within thirty days

Drummer Dies of Apoplexy.

Nashville, Tenn., August 5—H. E. Hagan, traveling salesman for a Nashville, wholesale drug house, was found dead in a room at a hotel in Tuscombia, Ala., this morning. Death resulted from apoplexy.

CHINA BOYCOTT EXAGGERATED.

Minister Barrett Says There Is No Need of Any Alarm.

San Francisco, August 5.—John Barrett, the newly appointed minister to Colombia, is here in connection with the commercial relations existing between the United States and China, particularly as regards the boycott inaugurated by the Chinese guilds against American products. He insists, however, that his mission is not of any official character, but simply to acquaint himself with the feeling of the coast as to the boycott and interviews one of the merchants who are engaged in the trade.

Minister Barrett, while conceding that the Chinese guilds are all powerful in the country, is of the opinion that the present alarm shown by the people of this country, over the action of the Chinese is unnecessarily exaggerated. He firmly believes that whatever grievances the Chinese guilds have will soon be dispelled when they are made to realize that our government is disposed to act fairly with them in the matter of immigration.

He is also of the opinion that our future policy as regards the Orient will depend much upon the results of the peace conference than the reports of theJapanese and Russian, and predicts that the next two years will witness a great change in the policy of the United States. Such a change will be attended with a noticeable improvement of our commercial relations in the Far East.

SWINDLER CAUGHT IN CHICAGO.

Succeeded in Getting Much Money on Raised Postoffice Orders.

Chicago, August 5.—Charged with swindling merchants in 21 cities out of thousands of dollars, Norman E. Roberts, alleged money order raiser and forger, was arrested last night as a substation. Roberts said he was a salesman until a few months ago. He is 27 years old and comes from New York, but has a wife living in Baltimore.

Roberts' method has not differed from that of seevral other swindlers, including one woman, who have sent been sent to the penitentiary from Chicago within the last three years. The forger buys a money order at a substation usually for 25 cents, and payable to some other person. Then all the writing is erased with chemicals and the blanks are filled out for any amount under $100. In Chicago the signature of Postmaster Coyne was forged.

The raised order then is offered by the swindler to some business house in exchange for small purchases and the remainder, which the forger receives, represents the amount of his dishonest gain.

ATTEMPT TO BLOW UP SHIP.

Capped Fueses Found in the Coal Hold While In Midocean.

San Francisco, August 5.—An attempt to blow up a ship in midocean has been reported by Captain C. Teusee, of the French ship Asnieres, which has arrived here from Swansea, Eng., loaded with coal. He left that port in January last and six weeks later, when far out at sea, a dozen capped fuses such as are used by miners to explode charges of dynamite, were discovered in the hold of the ship among the coal.

Had one of the fuses become ignited by a shock in a part of the hold where coal gas had accumulated, the ship would undoubtedly have been blown to atoms. Two or three of them had exploded, but fortunately at points where there was no gas and consequently no damage was done.

The presence of the fuses among the coal was discovered only by accident, where, during some rough weather men were sent down into the hold to level the coal and found them. The Asnieres belonged to the Societe Anonymome des Longs Corriers Aracas of Paris.

Discuss Norwegian Situation.

Copenhagen, August 5.—Crown Prince Gustave of Sweden, arrived here today to discuss with King Christian the question of the Norwegian throne.

SAKHALIN ISLANDS CAPTURED BY JAPS

Russians Surrender After Very Slight Resistence.

TOKIO GETS AN OFFICIAL REPORT

Three Thousand Men and Ammunition and Supplies, Etc., Fall into Hands of the Victors—Islands Formerly Belonged to Mikado's Domain.

Tokio, August 4.—Noon.—A report giving details of the final [illegible] and surrender of the majority of the Russian garrison on Sakhalin Island has been received as follows

"An independent cavalry column on the afternoon of July 28 attacked the enemy south of Palco and routed him, driving him southward, capturing two field guns besides a number of rifles and a quantity of ammunition.

"On July 29, the cavalry being reinforced, pursued the enemy south of Taylan, which lies 25 miles south of Rykoff. The enemy halted at noon, 25 miles south of Tayan and at 5 o'clock on the morning of July 31 sent a letter under a flag of truce to the Japanese commanding officer from General Liapnoff, the Russian governor saying that the lack of bandaging material and medicines and the consequent inability to succor the wounded, compelled him from a sense of humanity to terminate hostilities.

"The commander of the Japanese forces replied demanding the delivery of all war supplies and property of the Russian government, the unexploded and the delivery of all maps, charts, records and papers relating to the Russian civil and military administration and requiring their delivery in copy at 11 o'clock the morning of July 31, otherwise an attacking movement would be started.

"Colonel Tolivitch, on behalf of Governor Liapnieff, met Colonel Kuroki, Japanese chief of staff, on the morning of uly 31, and accepted the proposed terms.

"Governor Liapnoff, 70 officers and 3,200 men of the Russian garrison then surrendered.

"The spoils, consisting of [illegible] papers and military supplies are now under investigation."

Japanese Sails for Europe.

New York, August 5.—O. Kamimura the apanese commander, who in the battle with Admiral Rojestvensky's squadron, sailed the armored cruiser Tokiwara, left New York today on the steamship Celtic to take charge of the new Japanese battleship Katori now building in Scotland. Lieutenant Commander K. Sato, and other officers accompanied. Commander Kamimura The Katori, now at Glasgow, will be ready to put to sea for nearly a year, even should the Russian Japanese war end immediately. The Japanese officers are sent to inspect the battleship's completion. Other passengers on the Celtic included Mrs. Victor F. Lawson, of Chicago.

Troops May Pass Through States

Washington, August 5.—The state department today telegraphed the British ambassador and American consul general today that the governors of New Hampshire, Vermont and Massachusetts have formally consented to the passage through those states for the Forty-third Canadian regiment (the duke of Cornwall's Own), who are now in Ottawa, waiting to proceed to visit Boston and Providence. The only restriction is in the case of Massachusetts, where the state law [illegible] prohibits the assembly for drill or parade. The telegram to the ambassador was addressed to him both at New York and at the summer home at Lenox.

Floridian Commits Suicide.

Nashville, Tenn., August 5.—John H. Gray, of Panassofkee, Fla., committed suicide in a hotel here today by drinking carbolic acid. He registered at the hotel as "Jack Gordon, Chattanooga, Tenn." He was later identified as John H. Gray.

NINE HOURS' TIME OR NOTHING DOING

That is the Stand Taken and Being Carried Out by Strikers.

EMPLOYERS MUST BE FAIR

That is All Required by the Union Carpenters and Joiners Who Went on Strike—No New Developments, but Men Are Firm and Propose to Stick.

There have been no new developments in the carpenters' and joiners' strike since it was declared on the 1st inst. The carpenters claim that they only asked for what they considered a fair deal—the reduction of one hour in the working-day, and that they propose to gain their point or hunt new fields.

"We are not at all unfair," remarked one of the carpenters Friday, "as any man posted on the situation knows. The contractors and employers know this as well as we, if they would admit it. They know it in their own souls, anyway.

"If this concession of one hour should be granted, the contractors would get just as much work, and probably a little better service, as the men would feel encouraged. They would not feel so much as they have been feeling, that they were giving their time away for a mere laborer's compensation, and that they were being worked like common labor."

A few of the contractors are having no trouble, and on all jobs where the nine-hour system has been in force, the men never laid down their tools.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

Dr. Strouse in California.

A letter from Dr. Clarence B. Strouse dated San Francisco, California, July 28, bears information that he is assisting in a glorious meeting there. A San Francisco paper says: "Dr. Clarence Strouse preached one of the greatest sermons ever heard in San Francisco at Trinity church Sunday. Dr. Strouse has been invited with Dr. Chapman to conduct union services here next winter."

As a matter of course, while the compliment was great and deserving, Dr. Strouse will not accept the invitation, but will arrive in Gainesville in plenty of time for the opening of the Winter Bible Conference. A number of the finest pulpit orators and Bible students in the United States have already been engaged for the Conference here and the Chautauqua features will also be good.

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, proprietor Sullivan House, El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c and $1. Sold by W. M. Johnson.

Captured Big Cat.

Sheriff Fennell retains his reputation as a fox and wild cat hunter. On Thursday afternoon he took his dogs to Tiger Bay, a short distance from the city, and it did not require many minutes to "jump" an immense cat. After a lively chase and some fighting between his catship and the dogs, the animal was captured alive. The sheriff, however, permitted the dogs to kill it later, and the prize was brought home.

The cat tipped the beam at forty pounds. Its hide will be preserved as a souvenir.

Peculiar Disappearance.

J. D. Runyan of Butlerville, O., laid the peculiar disappearance of his painful symptoms of indigestion and biliousness to Dr. King's New Life Pills. He says: "They are a perfect remedy, for dizziness, sour stomach, headache, constipation, etc." Guaranteed at all [illegible]; price 25c.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root,** the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

THE NEWS FROM ALACHUA.

Transfer of City Lots—Cotton Held Back by Rain—Other Notes.

Alachua, Aug. 4.—C. W. Stephens, Saturday, purchased from J. C. Sheffield the vacant lot in front of O. M. Futch's. This is one of the best lots in the city. Mr. Stephens will at once begin the erection of two handsome residences.

The many friends of Miss Maria Turner regret to know that she is confined to her bed with fever.

Edgell Guinn and Bennie Wetherington were before Mayor Pearce this week charged with fighting. Wetherington was turned loose, but Guinn plead guilty and was fined $1 and costs.

Miss Maud Inman of Plant City is the guest of friends here.

R. E. Dell spent several days here this week.

The wires are being stretched for the telephone system. This will be one of our needed improvements and our people are glad to see the system put in.

C. A. Williams is offering five cents per pound for seed cotton. This price is good to and including August 9th.

Crop reports are very favorable. A good deal of cotton is opening, and were it not for the continued rains it would only be a short time until same would be on the market. It is understood that C. A. Williams and the Williams Company will be heavy buyers of the fleecy staple this season, and it is safe to say that Alachua will hold her own for good prices for cotton.

M. A. Densler of High Springs visited the city Wednesday.

Mr. and Mrs. B. W. Cato are being congratulated over the arrival of a fine boy, which has been with them since Tuesday.

Mr. Joiner of LaCrosse has accepted a position at Bishop's drug store.

Mrs. W. H. Sealey and daughter, Doris, have returned after a visit to relatives at Barney, Ga.

W. H. Berry is suffering from a bone felon on his finger.

W. H. Traxler was in the city Monday on his return from Gainesville.

Dr. Jim Bishop of Newberry was in the city Thursday.

Pat Hubbard visited High Springs Thursday.

NOTICE.

Notice is hereby given that after this notice has been published according to law, for six months, I will present my accounts to Hon. H. G. Mason, county judge of Alachua county, Florida, and ask that my accounts be approved and ask for final discharge.

WALTER M. FINDLEY,
As Administrator Estate of Margaret Findley, Deceased.

IMPORTANT NOTICE

To All Teachers and Applicants for Schools in Alachua County

Editor Sun: The law provides for two examinations in each county per annum, the object being to grant certificates to all who secure the legal per cent. These examinations cost a considerable amount and should be patronized by all who wish to teach in their home county. In fact, there was an order passed by the Board of Public Instruction several years ago requiring this. It has been a dead letter, but it is my duty and pleasure as superintendent to see that all orders are effective.

I regret that so many who wish to teach have gone from their home county to secure certificates. I had expected to enforce the order of the school board, but have decided that it it is barely possible that I would do some an injustice, and have decided, therefore, in that notice has not been given, not to require those who have gone from home for their certificates to stand an examination before allowing them to teach.

From this date any citizen who goes out of this county and secures a certificate other than a State certificate shall not be permitted to teach until they are examined in Alachua county. There is no better county than Alachua and all who expect to teach must be loyal to her, and it will hereafter require this much to get my endorsement.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good, and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." J. W. McCollum & Co.

Congratulates Everybody.

The following postal card has been received by The Sun from Mrs. E. M. Munsinger, Brocton, N. Y.:

"Prof. W. N. Sheats: As I do not know your address, please allow me through The Sun to extend my congratulations to yourself and the people of Gainesville, who have elected you to be principal of the Gainesville High School, the intelligence of which has just reached me. I will ever remember gratefully your kindness to my late husband, on all occasions of public gatherings where it was his pleasure to meet you and yours to promote and secure his welfare. Congratulations also to all whom it may bless, for the State University. With the auditorium and all it means a boom of good things. Congratulations for a temperate, public-spirited mayor."

Herbine

Renders the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and over indulgence in food and drink. G. L. Caldwell, agent M. K. & T. R. R., Checotah, Ind. Ter., writes, April 18, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, when my druggist advised me to use Herbine. It has made me sound and well." 50c. Sold by W. M. Johnson.

A Family Relic.

L. A. Jernigan has in his possession something of a curiosity in the nature of a Swiss hand-made watch, which has been in the Cannon family for the past one hundred and fifty years, having been brought to this country from Europe by the Cannon ancestors prior to the Revolutionary war. The case is of solid gold, but worn almost as thin as paper.

Notwithstanding that the watch is somewhat antiquated from the style of the present day and has naturally seen hard and constant service, it is yet an excellent time-keeper and for the past week has been doing twenty-four hours' work a day. It is now owned by Mrs. George M. Colman, one of the descendants, and is naturally prized very highly.

Fiendish Suffering

Is often caused by sores, ulcers and cancers, that eat away your skin. Wm. Bedell of Flat Rock, Mich., says: "I have used Bucklen's Arnica Salve for ulcers, sores and cancers. It is the best healing dressing I ever found." Soothes and heals cuts, burns and scalds. 25c at all drug stores; guaranteed.

POSTAL RECEIPTS ON THE INCREASE

Have Been Steadily Advancing for Past Three Years.

THE PROSPECTS FOR 1905

At Present Rate Receipts Will Exceed This Year $16,000—Postmaster Arnow and Assistant Bell Making a First-Class Service—Improvements.

One of the most convincing facts that Gainesville is growing steadily every year is the business transacted by the United States postoffice here, the receipts of which have increased steadily each year for the past five years. The greatest and most notable increases, however, have been for the years 1902, 1903, 1904 and the first seven months of the present year, when the receipts from postal funds alone have been increased from a little over $9,000 in 1902 to nearly $14,000 in 1904. The first seven months of the present year show more than $8,000 to August 1, which means that the receipts for 1905 will show not less than $16,000, as the business is always heavier in the fall.

This is indeed encouraging and Postmaster Arnow and his assistants are to be congratulated. They have made the service first-class, and no city in the South can boast of a more efficient force throughout.

There has been many improvements in the service during the past twelve months, principal among which was the inauguration of the free delivery system. This proves a great convenience to the patrons of the office, and has tended to increase the postal receipts considerably. The inauguration of the free rural service is also a big thing. While there is only one route established now, Postmaster Arnow is working on others, and that officer states that within the next twelve months practically every resident within a radius of ten miles of the city will have the convenience of a free delivery at least once each day.

At the present rate of increase in receipts, it is safe to assert that it will not be long before the Gainesville postoffice will be among the first class.

Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This fact is well known to druggists everywhere, and nine out of ten will give their customers this preparation when the best is asked for. Mr. Obe Witmer, a prominent druggist of Joplin, Mo., in a circular to his customers, says: "There is nothing on the market in the way of patent medicine which equals Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. We sell and recommend this preparation." For sale by all druggists.

SWALLOWED INSECTICIDE.

Prominent Citizen Made Mistake, but Doctors Relieved Him.

There occurred what might have been a serious mistake in this city Wednesday, had it not been for the timely arrival of a physician with his stomach pump.

A certain resident, a prominent business man, was feeling badly and decided he would administer to himself a dose of strychnine and quinine. There were two bottles about the same size and filled with the same colored contents, and the party carelessly measured out what he supposed to be the medicine he desired. He swallowed the dose with indifference, but soon began to feel a little uneasy about the stomach, when, upon investigation, it was discovered to his horror that he had taken an insecticide. Naturally the victim became more indisposed and a physician was summoned. He applied a stomach pump and the patient was soon relieved, but it was an experience which will teach him to use more caution in future.

Other than a little scare and a good deal of sick stomach, there were no ill effects from the error.

A Touching Story

Is the saving from death of the baby boy of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for consumption, coughs and colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At all drug stores; 50c and $1; guaranteed. Trial bottle free.

INSPECTED THE NORMAL.

State Superintendent Holloway Well Pleased With Institution.

State Superintendent of Schools W. M. Holloway, who came from Tallahassee for the purpose of inspecting the University Normal, performed that duty Thursday and expressed himself as being well pleased with the school and the work that has been accomplished.

The school, as was stated in a recent issue of The Sun, is proving a big success, the enrollment being large and the work effective. Its success, in fact, has been remarkable, considering that this is the first season.

"The faculty of the school is all that could be desired, as each is a professional in his department," remarked Prof. Holloway. "I can readily see that a great deal of effective work has already been performed."

Prof. Holloway expects to return to Tallahassee today.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters of 546 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at all drug stores; price 50c.

ARCHITECTS INTERESTED.

Are Invited to Discuss Plans for University Buildings on 14th.

Architects all over the South as well as in Jacksonville are all deeply interested in the approaching meeting of the Educational Board of Control, which will be held in Jacksonville on August 14.

At this meeting architects have been invited to appear before the board to widely discuss plans for the new University buildings to be erected in Gainesville, Fla. N. P. Bryan of this city is the chairman of the board.

The architects of Jacksonville are deeply interested in the approaching meeting, and it is said that many will be prepared to discuss the plans for the new buildings to the advantage of the board.—Times-Union.

They Appeal to Our Sympathies.

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. There is not one of them, however, who may not be brought back to health and happiness by the use of Chamberlain's Stomach and Liver Tablets. These tablets invigorate the stomach and liver and strengthen the digestion. They also regulate the bowels. For sale by all druggists.

Married.

At 8 o'clock Thursday morning Mr. T. O. Loveless and Miss Frankie Mae Owen, both of Tampa, were quietly married at the Methodist parsonage by Rev. T. J. Nixon.

Cures Sciatica.

Rev. W. L. Riley, L. L. D., Cuba, New York, writes: "After fifteen days of excruciating pain from sciatic rheumatism, under various treatments, I was induced to try Ballard's Snow Liniment; the first application giving my first relief and the second entire relief. I can give it unqualified recommendation." 25c, 50c, $1.00. Sold by W. M. Johnson.

THE VAGRANCY LAW.

County and City Authorities Propose to Enforce it Rigidly.

People who have no visible means of support, idlers and those who throw their money away recklessly and foolishly, and frequent places of ill repute, will in future be subject to arrest and punishment by the county or city authorities.

Under the new vagrancy law, which went into effect on the 2nd inst., it does not require a warrant for the arrest of any person, male or female, but the officers are at liberty to nab such persons as are known to be vagrants and lock them up, pending a hearing.

This section fortunately has few vagrants, as the people as a rule are industrious and energetic. Sheriff Fennell and Marshal Pinkoson, however, give warning that the law will be enforced, and those subject to arrest will govern themselves accordingly.

A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by all druggists.

Mr. Baxter Returns.

After an absence of three weeks E. G. Baxter has returned from Oklahoma, where he went as a representative of Gainesville people who own property in Covington. While absent he visited several points in Northern Oklahoma, and is well pleased with that country.

Covington is a new town, but a growing one. Although only a little more than a yearling, there are between 500 and 600 inhabitants, and the population is increasing monthly. The principal interests are grain, there being four immense elevators in the town.

"Covington is destined to become an important city," remarked Mr. Baxter. "It is located in the heart of a rich agricultural country, where almost anything planted will grow and yield prolific harvests. Covington is naturally the center of trade for this territory, as the nearest city, Perry, is eighteen miles distant on the one side, while Enod, a city of 22,000 population, is twenty-two miles. There is no apparent reason why Covington should not grow and flourish."

A Worm Killer.

J. A. J. Montgomery, Puxico, Wayne county, Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them, which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is an excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms—it helps the child to perfect growth, wards off sickness. Sold by W. M. Johnson.

A Business Change.

There was an important business change in this city Friday, when George F. and J. Medley Mason purchased from M. F. McCook the stock and good will of the Gainesville Grocery, corner West Main, S., and Union streets.

The Gainesville Grocery is one of the oldest established and most up-to-date places of its kind in the city, and the new proprietors, both of whom are popular young men, will no doubt enjoy a fine trade.

Cured Hay Fever and Summer Cold.

A. J. Nashbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollam & Co.

FLESH EATING BIRDS.

They Find Their Prey by Sight, Not by Sense of Smell.

A study of the habits of flesh eating birds shows that if they possess the sense of smell at all it is not sufficiently acute to enable them to use it in finding food.

All observers are agreed that when a carcass is hidden by never so slight a screen it is safe from the attacks of vultures and other carrion seekers, but the most remarkable proof of the ineffectiveness of the sense (if it exists at all) is afforded by experiences which Dr. Guillemard was good enough to relate to me. Many times it has happened, he tells me, that, having shot a wild beast or other game which was too heavy to carry home, he has disemboweled it and hidden the carcass in the hole of an "ant bear."

On returning with natives to carry it to camp he has found a circle of vultures standing round the spot where the offal had been thrown, completely unaware of the carcass within a few yards of their beaks. Of course, as proving the possession of the sense, we know none unless we are willing to accept as evidence the belief, which is very general among fanciers, that pigeons are attached to the smell of anise and the similar belief of gamekeepers in some parts of the country that they are attracted by valerian. It is said that pigeons may be prevented from deserting the dovecot by smearing their boxes with oil of anise. Polecats are supposed to lure hen pheasants from a wood by anointing gateposts with tincture of valerian.—Nature.

WAIT FOR AN APPETITE.

Do Not Eat a Meal Unless You Are Really Hungry.

It is not wise to eat unless there is real, natural hunger. It is far better to miss a meal than to eat without an appetite.

A prolific cause of chronic indigestion is eating from habit and simply because it is mealtime. To eat when not hungry is to eat without relish, and food taken without relish is worse than wasted. Without relish the salivary glands do not act, the gastric fluids are not freely secreted and the best of foods will not be digested. Many perfectly harmless dishes are severely condemned for no other reason than they were eaten without relish and due insalivation.

Hunger makes the plainest food enjoyable. It causes vigorous secretion and outpouring of all the digestive fluids—the sources of physalin, pepsin, tryspin, etc.—without a plentiful supply of which no foods can be perfectly digested.

Wait for an appetite if it takes a week. Fasting is one of the saving graces. It has a spiritual significance only through its great physical and physiologic importance. If breakfast is a bore or lunch a matter of indifference cut one or both of them out. Wait for distinct and unmistakable hunger and then eat slowly. If you do this you need ask few questions as to the propriety and digestibility of what you eat, and it need not be predigested.—Boston Cooking School Magazine.

Baltimore Crabs.

The price of a deviled crab in Baltimore runs down quite a scale. Beginning with 15 cents in the fashionable hotels, it drops to 10 at the ordinary eating bar and then to 5 when bought from the greasy basket of the good natured crab man. In the tiny Italian cook shops deviled crabs can be enjoyed at the rate of 3 cents each, and in the saloons along the water front they are often stacked up in a huge dish on the free lunch counter. With all these opportunities for feasting on the well seasoned "debbil" it is little wonder that Baltimoreans are considered the crab connoisseurs of the nation.—New York Herald.

Rossini's Jealousy.

Rossini was intolerably jealous of all his musical contemporaries and particularly of Meyerbeer. In 1836 he heard "The Huguenots," and on listening to the performance from the beginning to the end he made up his mind that Meyerbeer had excelled him and determined to write no more. He lived on till 1868, but produced nothing for the lyric stage. His thirty-two years of retirement were spent in the pleasures of a voluptuary. He was particularly fond of good eating and drinking and assembled about him the youngest and gayest society he could attract to his house.

The Tearkerchief.

In some parts of the Tyrol a beautiful though curious custom prevails. When a girl is going to be married and just before she leaves for the church her mother gives her a handkerchief which is called a tearkerchief. It is made of newly spun and unused linen and with it the girl dries the natural tears she sheds on leaving home. The tearkerchief is never used after the marriage day, but is folded up and placed in the linen closet, where it remains till its owner's death, when it is taken from its place and spread over her dead face.

Not even a suspicious case of any kind of sickness in Tampa, and yet a few idiots are alarmed over the fever situation.—Tampa Tribune.

Mrs John Jacob Astor has returned from London. There is nothing startling about the news of her return, but the fact that she has all her gorgeous gowns and jewels intact, is something remarkable.

Hoke Smith is said to be a part owner of the Piedmont hotel bar at Atlanta and sells liquor to destroy homes and then gives to charity. Thus, he furnishes his own target for his charity practice.

The undesirable immigrants are pouring into this country at a lively rate. While the number arriving during the month of July just ended has been 45,000, over 1,000 have been returned as undesirable.

According to Gustave Meyer, the astrologer, if we get through the calamities in store for this mundane sphere until Christmas, we can consider ourselves bomb-proof and able to battle with a Texas cyclone.

If any important business should happen to come before the departments at Washington at the present time it would be a great annoyance to the committees now engaged on the investigations that should be disposed of in some manner before the campaign gets too far advanced.

Automobile hold-up parties have been inaugurated near Chicago. The others shoot a hole in the tire, which puts the machine out of business, and then call on the occupants of the auto for to "pass over" their valuables. The party netted the promoters a nice sum of money and a quantity of jewelry.

The administration will not undertake to punish the guilty parties in the recent abuses at Washington in the various departments. The idea is to expose and check it for future generations and thus curtail the number until there will not be so many as to overflow the penal institutions of the country in case there are any convictions.

FILTHY NEW ORLEANS.

The filth of New Orleans and the allowing of mosquitoes to propagate without the least interference is the cause of the outbreak of yellow fever in New Orleans. The places about the city where everything abounds except a pure atmosphere is the principle factor in the development of all that is vile.

H. Edward Milner, a refugee from New Orleans who has reached Cincinnati after passing through a great deal of hardship, to an Enquirer reporter related the following: "After nine years' residence in New Orleans, we have left it forever. It is the filthiest and the worst graft town in the United States. We sold out lock, stock and barrel, and have come to make our home in Cincinnati. New Orleans is filthier than was Havana under Spanish rule, for I was there for two months and know whereof I speak. As to graft, Philadelphia isn't a circumstance. The tax-payers have paid out many millions of dollars for the betterment of the city, but much of it has been squandered and passed into the pockets of the politicians.

"This yellow fever scourge seems like retribution. Some of the people are leaving without luggage, and yet a stranger entering the city would not know that the plague was abroad. Those who have to stay make light of the danger. The facts have been concealed. The fever has been there since the third week in May, and there have been over 800 cases. All classes are contracting the disease. Even the negroes. Most of the cases have been in the Italian and French quarters below Canal street, but four cases were reported in the fashionable section when we left Saturday. We had been in Vicksburg on a visit until a week ago, and did not know of the fever until we got back. We were not in the infected district, however. Our home was seven miles in one direction and five in another from any reported case."

Mr. Milner says the trip through Mississippi was shameful, and they were badly treated. Whenever they showed their faces at the screens in the Pullmans the people would squirt formaldehyde in their faces and would not allow them to enter the dining car.

FLAG ETIQUETTE.

When President McKinley was assassinated four years ago, says The Montgomery Journal, thousands of loyal Americans raised flags at half-mast over their places of business and let them fly by night and by day until they wore out. They undoubtedly thought they were showing respect to McKinley's memory, but they were not showing proper respect to the flag. The United States government displayed at that time its flags at half-mast from sunrise to sunset from the President's death to his burial. The government regulations provide that on the death of a president in office its flag shall be displayed at half-mast only one day.

In memory of the 350,000 union soldiers who lost their lives during the Civil War, on May 30, Memorial Day, each year the United States displays its flag at half-mast at all army posts, stations and national cemeteries from sunrise till midday. Immediately before noon a dirge is played by the band, or field music and the national salute of twenty-one guns is fired. At the conclusion of this memorial tribute at noon the flag is hoisted to the top of the staff and remains there until sunset. The idea is that the national ensign is too sacred an object to be long in mourning for any man or number of men, no matter how exalted their rank.

The flag reversed, with the union down, denotes distress. The flag on anything but a fort actually besieged, should never be displayed between sunset and sunrise.

When the flag is to be displayed at half-mast it is lowered to that position from the top of the staff. It is hoisted to the top before it is finally lowered.

The regulations of the board of education of Chicago are that the flag shall be displayed on all school houses on Monday morning during the school years and on legal holidays, excepting that flags must not be displayed during storms or whenever they are likely to injure or destroy the flag.

Any improvement that is worth being done, should be done well.

EDUCATIONAL BONDS.

The election to be held on Tuesday, August 8th, to decide whether the issuance of the bonds provided for by ordinance shall be approved by the registered electors of the city, should command the attention of every man and woman who has the interests of the city at heart. While the women cannot vote, they can wield an influence for good and thus aid in advancing the city's best interests.

While The Sun would not unduly influence any voter in this matter, under the present conditions it would seem our only hope now is to carry this question by a sure majority, and since it has been decided to be for our best interests, the vote should be unanimous.

The bonds call for the payment of $50,000 for the purpose of securing educational advantages and facilities, which means the location of the University of Florida in our city. The terms of payment are made easy and the interest at five per cent. It will not be required of the city to pay these bonds in full before the expiration of thirty years, and as our city advances in wealth and progress the burden becomes less on each individual property holder.

The University of the State of Florida, the leading educational institution of the State, will be located on the site selected west of this city by the Board of Control, and the impression that any of the important features of this school will not be included in its courses as in the past is erroneous. The school will be here in its entirety, regardless of the statements made by those who have no authority to speak regarding the matter.

The University will have a course of study equal to any of the high-grade universities of the country. It will be the aim of President Sledd to place it in the front rank of the educational institutions of the United States, and he will have the co-operation of the State Board of Education. The object of the school will not be to turn out industrial units, but to fit out our young men with an education that will enable them to master any of the professions or prepare them for any business they may see fit to follow.

Gainesville has the endorsement of the press and people of the State as the proper place for the seat of learning of Florida, has been voted the same by the Board of Control, and the people of our fair city should not be behind in appreciating the efforts and approval of others of the eminent standing accorded our city, and although the school will be conducted as non-sectarian—religious teaching being debarred from the public institutions of learning—the tone of the public sentiment of our city can do much to aid in placing a moral aspect before the students and build up from the foundation a school that will attract the attention of all who desire to have the schools of the land as a safeguard to our Republic.

DEATH OF SENATOR LEE.

Hon. George M. Lee, State Senator from Lake county, died at his home in Leesburg Tuesday, August 1st, of heart failure. He was down town in the morning, when he complained of not feeling well. He went home and at 3:30 p. m. suddenly expired.

He was a man well liked by all who knew him and was a quiet, unobtrusive gentleman. He went with his father's family from Alachua in 1849 and settled in Sumter county. He was a man of prominence, having been county commissioner for Lake county. Mr. Lee was 68 years of age. Besides his wife, he is survived by two brothers, L. B. Lee of Jacksonville, P. A. Lee of Leesburg; two sisters, Mrs. John Love and Mrs. Elizabeth Dozier of Leesburg; three sons, James A. Lee, J. C. Lee, G. M. Lee of Leesburg, and two daughters, Mrs. H. R. Smith of Orlando and Mrs A. Bourlay of Leesburg.

The present wheat crop in the Canadian Northwest, already being harvested, will be very large. Many authorities estimate that it will exceed a hundred million bushels, against fifty-five million last year. The increase in the crop is due to a wet June, in which were many hot days, also to the increased acreage, there being more than four million acres sown this year.

MR. HESTER'S MISFORTUNE.

Is Suffering From Injuries Received in Railroad Accident.

Friends of L. C. Hester of Williston, who, with his family, has been sojourning at White Springs for the past few days, writes The Sun requesting that his paper be changed from that place to Williston.

"I was taken very ill at White Springs a few days ago, on account of the injuries received in the railroad wreck some time ago at High Springs. My injuries are internal, and I fear it will take me some time to get over them."

It is hoped that Mr. Hester's injuries are not as serious as he supposes, and that he will soon completely recover.

W. D. DICKINSON,
Tax Collector, Alachua County, Florida.

Gainesville, Fla., July 20, 1905.

Should any persons who have paid 1904 taxes, find any items of their property on which they have paid taxes advertised in the foregoing list, if they will send me the number and date of their receipt, I will investigate, and if taxes have been paid on same, I will immediately have such items struck from the list at my expense. We have been as careful as possible in preparing this list, but as it is a difficult undertaking, covering a period of more than eight months' collections, there is a possibility that some items may have gotten on the list on which the taxes have been paid. I will cheerfully correct such errors, if my attention is called to them, without any expense to the tax payer, but be sure to give me the number and date of receipt.

Very respectfully,

W. D. DICKINSON.

LEGAL ADVERTISEMENTS.

FORECLOSURE OF MORTGAGE.

In the Circuit Court, Eighth Judicial Circuit, Alachua County, Florida—In Chancery. George K. Broome vs. Susan Jones—Mortgage Foreclosure Supplemental Bill.

It appearing by affidavit appended to the bill filed in the above stated cause that Susan Jones, the defendant therein named, is a non-resident of the State of Florida and that she is a resident of Shubuta, State of Mississippi, and is over the age of twenty-one years; it is therefore ordered that said non-resident defendant be and she is hereby required to appear to the Bill of Complaint filed in said cause on or before Monday the 7th day of August, A. D. 1905, otherwise the allegations of said bill will be taken as confessed by said defendant.

It is further ordered that this order be published once a week for four consecutive weeks in The Gainesville Sun, a newspaper published in the said county and State.

This 29th June, 1905.

His gun fell from his shoulder and was discharged early Tuesday, the ankle of his right leg being shattered, and he lay there until Wednesday morning, unable to move, when found by his son.

John Hunter and James Long, while working on the cornice of a building in Ybor City, were precipitated to the ground by the scaffold giving way. D. E. and S. M. Thomas, carpenters working on the second story balcony, were caught and hurled to the ground. The four men fell in a heap, with brick and other debris, and Hunter and Long were seriously injured.

How to Avoid Appendicitis.

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. [illegible] J. W. McCullom

E BOND VOTE NEXT TUESDAY

ple Will Decide on Bonding Issue Amounting to $50,000.

ERY VOTER IS FAVORABLE

Far as Can be Ascertained the Issue be Carried Unanimously—The Funds to be Used for Purpose of Securing Educational Facilities.

ext Tuesday will be an important in the history of Gainesville, for that day, with the ballot, the ny of the city from an educational standpoint will be decided by the ple.

On July 3rd of the present year the y Council, ever awake to the interof Gainesville, commercially, educationally or otherwise, passed unanimously an ordinance providing for the lling of a special election on Tuesy, August 8, to determine whether not the city should issue bonds in e sum of $50,000 for the purpose of uring additional advantages and faities in or adjacent to Gainesville. his ordinance was authorized by spel act of the Legislature at its last sion.

The people of Gainesville, as has already been demonstrated on divers occasions, and never more forcibly than the fight for the State University, e as a unit on educational progress, d it is safe to assert that the bond ue will be carried by an overwhelmg majority. In fact, it is not bered that a score of voters can be nd who will oppose the move by the ballots, and it is doubtful whether there will be a dissenting vote.

The election will be held in the municipal building, and the inspectors will be W. L. Hill, W. S. McDowell, D. A. Robertson, and F. X. Miller, clerk. The polls will open at 8 o'clock and close at sundown.

A great deal of interest is being manifested in educational matters now, and it is believed the people will show their enterprise by polling a unanimous vote.

The Gainesville Graded and High School will be placed on the University list, the same as many of the high schools of the State. This will give the young men a chance to prepare themselves at home for admission to the University, thus avoiding being sent to preparatory schools.

MISS CAMP FETED.

Prominent Florida Young Lady Entertained in Atlanta.

Owing to the popularity of the young lady, who was formerly a frequent visitor and has many friends here, the following from a recent number of The Atlanta Journal will be read with interest:

"Miss Sallie Camp of Ocala, Fla., who is with the Misses Scott, is an especially popular visitor. A beautiful reception was giving in her honor one evening this week at the hospitabe Scott home, only the unmarried set being present. Parlors, library, hall and dining-room were opened and beautifully decorated. Dancing and cards were the amusements of the evening, and all manner of refreshments and cooling things were served.

"Miss Mary Jones and Miss Margaret Coggins entertained charmingly in Miss Camp's honor. The broad porches and lawn of the Coggins' home were swung with Chinese lanterns, and palms, ferns, rugs and easy chairs made an attractive picture. Indoors, brilliant lights and a wealth of cut flowers made the scene equally inviting. Progressive anagrams was the game of the evening, and was much enjoyed by those present. A number tied for the first prize, which was finally given to the guest of honor. Mr. Yates of Atlanta won the 'booby.' After the contest delicious punch, cakes and cream were served.

"A small party, consisting of Miss Camp, the Misses Scott, Miss Mary Jones, Colonel Luke Tate, Mr. Albert Jones, Mr. James Brown and Dr. John Turk, spent an evening delightfully at the Fields farm near town this week.

Scuppernong Grapes.

Rev. F. M. Hartman of Paradise was in the city yesterday, and brought to The Sun office a sample of his purple scuppernong grapes that were very large, as well as of excellent flavor. Mr. Hartman has six different varieties—white, purple, green, etc., but the purple ones are very large, one measuring 3¼ inches in circumference. He expects to have about fifty bushels this year.

He also brought a twig from the "Wonderful Lemon" tree, which had several blossoms. This tree blossoms every month and has fruit at all seasons, and at the present time it has full grown lemons as large as a big pear, and from that down to the blossoms.

Mr. Hartman is quite a fruit grower at his home, and on his invitation we expect to be with him some day in Paradise.

A brick gutter is being laid on the south side of Union street, between West Main and East Main, which will greatly improve that thoroughfare, as it will prevent the standing of water after every rain. The work is being done under the supervision of Contractor D. G. Edwards.

Rev. Oliver Faus of Bayard, who has been here on a visit to his brother, J. J. Faus, returned yesterday from Branford and Pinemount. Rev. Faus formerly filled regular appointments at these places, and his old friends were naturally glad to welcome him again. He expects to return to his home today.

The attention of real estate owners is called to the delinquent tax list which appears in this issue. Whether you have paid your taxes or not, it behooves you to peruse the list carefully, and if any mistake has been made on your part or by the tax collector, have the mistake corrected at once. It is next to impossible for the collector to avoid making some errors, but he will cheerfully correct all mistakes at his own expense.

From Saturday's Daily Sun.

Rev. J. T. Duncan of Micanopy was among the visitors to Gainesville yesterday.

Granville Worthington of Alachua was a business visitor to this city yesterday.

Friends in this city will regret to learn of the death of Mrs. Arthur White of Norfolk, Va., which occurred at her home Tuesday. Deceased was about twenty-eight years of age and is survived by a husband and little daughter, Blanche. They visited Mr. and Mrs. W. J. Denby in this city for two winters and made many friends who will extend sympathy to the bereaved ones.

Among the visitors to Gainesville yesterday was Prof. W. N. Sheats, the newly-elected principal of the Gainesville High School. Prof. Sheats came for the purpose of renting a home for his family, and succeeded in securing a nice place on West Main street N. He expects to bring his family within the next thirty days, after which he will again make his permanent home here.

Quite a party expect to leave this city today, sailing on the Clyde Line steamship Arapahoe tomorrow for New York. Among those are H. M. Chitty, S. H. Benjamin of Micanpy, Mr. and Mrs. J. E. Futch, Chas. Pinkoson and A. M. Dickson. Messrs. Pinkoson and Dickson expect to be absent some time, and will include in their itinerary Buffalo, Niagara Falls and points in Canada. Mr. Pinkoson will visit friends in Patterson, N. J.

L. J. Burkhim has returned from New York, where he went to purchase his line of fall and winter clothing and gents' furnishings. He selected one of the finest and most complete lines ever brought to this section, and will display the goods at the proper time. En route home Mr. Burkhim stopped over at Asheville and Henderson, N. C., which he reports as being delightful at this season. The temperature was so low that he was compelled to sleep under two blankets for comfort.

Just Meandering.

A city girl writes: "It is a fond dream of mine to become a farmer's wife and meander with him down life's pathway."

Ah, yes, that is a nice thing! But when your husband meanders off and leaves you without wood and you have to meander up and down the lane pulling splinters off the fence to cook dinner, and when you meander along in the wet grass in search of the cows till your shoes are the color of rawhide and your stockings soaking wet, and when you meander across twenty acres of plowed ground with a club to drive the hogs out of the cornfield and tear your dress on the barb wire fence, when you meander back home to the house, find that the billy goat has butted the stuffin' out of your child, and find the old hen, with forty chickens, in the parlor, you'll put your hands on your hips and realize that meandering is not what it is cracked up to be.—Osborne (Kan.) News.

The Savannah News of Thursday says: "Mrs. Elizabeth Evans of Lakeland, Fla., was successful yesterday for the third time in getting a big judgment against the Atlantic Coast Line Railway for the death of her husband. The jury, after being out two hours and a half, found in her favor for $12,000. The suit has been tried twice before, resulting the first time in a verdict for $3,000 and the second time for $8,000."

The detectives, the coroner's jury and the grand jury of Dade county have all failed in clues or apprehension of the assassins of C. E. Davis and daughter two months ago near Miami. The murderers will now, it is thought, never be found. However, the grand jury asked the county commissioners for an appropriation, to enable the officers to continue the investigation.

H. M. Ballentine, an engineer on the S. & S. P. Railroad, committed suicide at Alton, near Mayo, on Wednesday by taking morphine. He was 30 years of age and leaves an aged father and mother.

UNCLE SAM NOW HAS YELLOW FEVER

Under the Direction of His Doctors at New Orleans.

CONFIDENCE BEING RESTORED

President Roosevelt Orders the Government Physicians to Take Immediate Charge—There is Now a Ray of Hope—Many New Cases.

Washington, D. C., Aug. 5.—President Roosevelt last night forwarded to Surgeon-General Wyman instructions to take full charge of the yellow fever situation in New Orleans, and advised him to do everything to check the disease.

At New Orleans.

New Orleans, Aug. 5.—The announcement that the President had taken prompt action in the matter of checking the fever here has a tendency to cheer up the despondent and restore confidence. Sixteen new cases were reported at noon today. The deaths for that time were only two, with a total to date of 91. There are now upwards of 500 cases in the city.

Tampa, Aug. 5.—There is complete quiet here at present and there is no fear expressed in regard to fever.

THE SUMMER NORMAL STILL PROSPERS

Enrollment Has Materially Increased During Past Week.

FINE WORK IS BEING DONE

The End of the First Month's Work Shows the Most Successful of Its Kind Ever Established in the State. All Departments Are Thorough.

The end of the first month of the University Normal shows it to be one of the most successful schools of its kind ever established in the State. The attendance has increased rapidly since its first week until now the student body numbers seventy-five representatives from nineteen counties—men and women who stand in the front rank of their profession.

Principals of the leading high schools of the State and quite a number of assistant teachers in the city and town schools have enrolled during the past week. These teachers are here for thorough preparation in the branches required for State certificate or for special work in primary methods.

The different courses and daily recitations are so arranged that an excellent opportunity is afforded those who wish to specialize along these lines.

The department of pedagogy and psychology is under the direction of Prof. L. W. Bucholz, the principal of the Normal. Prof. Bucholz is conceded to be the best informed authority on these subjects in the State, and the peer of the best educational thinkers of the South. His work has created enthusiasm in all the departments, for his students carry into their work the inspiration of their teacher. A prominent feature of this school worth noting is the large amount of laboratory work being done in the science classes. In physics the fine equipment which formerly belonged to the East Florida Seminary is in requisition every day. In physiology, botany and zoology constant use is made of the dissecting tools and microscopes in the study of typical forms of life gathered from the adjacent fields and woods. In political and physical geography, in addition to globes and maps the student teachers are given views of characteristic forms, prominent places and leading industries, by means of an electric stereopticon. In physics, as many experiments as possible of the National physics course are being prepared and written up in note-books by individual pupils.

Another important part of this summer school is the primary training department. Here are to be found twenty-five or thirty earnest and enthusiastic teachers, all desiring to become proficient in this line of work. Miss Rowena Longmire of Summerlin Institute, at Bartow, has this work in charge. She is a graduate of the Peabody Training College for Teachers, Nashville, Tenn., and her success in past normal summer schools has brought her into favorable notice.

A model class of children has been organized, so that the teachers may actually see the practical application of the latest and best approved methods.

On Monday and Friday of each week especial assistance is given to those preparing for the examination for primary certificate.

State Superintendent Holloway visited the school during the week. He expressed himself as well pleased with the work and general progress of the Normal.

REFUSED FINE POSITION.

Prof. McBeath Refused Lucrative Job Rather Than Leave Florida.

That Prof. Tom F. McBeath is devoted to Florida, especially Gainesville, is forcibly demonstrated by the fact that Saturday he turned down the offer of a position on the faculty of the Southern Normal School of Kentucky at a salary of $1,800 per year. The offer came as a sequel to former correspondence, in the form of a telegram to Prof. McBeath making this offer and requesting an immediate reply. Prof. McBeath replied, thanking the president for the offer but declining.

The Southern Normal is the largest institution of its kind in the South and one of the largest and most successful in the United States. The people of Gainesville should and do appreciate this distinguished educator's loyalty to his State and his town and there is no doubt something good is in store for him here.
